

SANJAY SUDHAKAR

Erie, CO • Sanjay.Sudhakar@colorado.edu • CU Boulder

EDUCATION

University of Colorado Boulder — Boulder, CO

B.S. in Computer Science | Expected Graduation: May 2030

Current Coursework: CSCI 1000: Introduction to Computer Science, CSCI 1300: Computer Science 1, APPM 1350: Calculus 1

Interests: Artificial Intelligence, Machine Learning, Robotics, Computer Graphics

Peak to Peak Charter School — Lafayette, CO

High School Diploma | 2026

Dean's List • AP Scholar • NHS Tutoring Award

TECHNICAL SKILLS

Languages: Python, Java, C#, HTML/CSS

Areas: Artificial Intelligence, Machine Learning, Robotics, Data Structures, Web Development

Platforms/Tools: GitHub, Codecademy, Scratch, Sphero, Cubelets, SparkFun XRP, Raspberry Pi Pico W

AI & COMPUTER SCIENCE EXPERIENCE

Artificial Intelligence Humanities Research Project

Peak to Peak Charter School | 2025–2026

- Conducted an independent month-long research project on artificial intelligence, including AI models, workforce automation, job market effects, efficiency, and productivity.
- Investigated how AI is transforming modern industries and the opportunities and challenges associated with increasingly capable AI systems.
- Synthesized research into a final paper that became one of my most meaningful academic projects and strengthened my interest in AI research and development.
- Analyst Position - AI Club at CU Boulder

CU Boulder Robotics Summer Course

University of Colorado Boulder | 2024

- Built and programmed 3D robots using sensors, motion algorithms, and microcontrollers.
- Worked with Cubelets, Sphero, and the SparkFun XRP with a Raspberry Pi Pico W.
- Applied programming concepts to physical systems while exploring mechanical and electrical design.
- Collaborated on hands-on robotics projects and developed code into functional robotic behavior.

Coding & Software Projects | 2024–Present

- Developed programming projects while building experience with Python, Java, C#, HTML/CSS, and computer science fundamentals.
- Created and experimented with games and web-based projects, including projects inspired by Snake and Cookie Clicker.
- Explored applications of programming in web and game development, as well as AI-related technologies.
- Built a foundation in data structures and algorithmic problem-solving through coursework and independent practice.

LEADERSHIP & COLLABORATION

PAC Leader — Peak to Peak Charter School | 2024–2026

- Mentored incoming freshmen and supported their transition into the school community through monthly meetings, activities, and events.
- Used collaboration and team-building to help quieter students become more comfortable participating in group activities.
- Developed communication and leadership skills while balancing demanding academic and extracurricular commitments.

Informal Cubing Instructor & Leader | 2024–2025

- Organized and taught a group of peers interested in improving their speedcubing skills.
- Explained algorithms and techniques while adapting instruction to different skill levels.
- Helped one student progress enough to participate in a regional cubing competition and succeed

WORK EXPERIENCE

Crew Member — Chipotle Mexican Grill

Lafayette, CO | 2026–Present

- Work approximately three shifts per week while balancing college coursework and other commitments.
- Collaborate with coworkers in a fast-paced environment while maintaining accuracy and efficient customer service, especially because my role is specifically designed during rush hours
- Develop practical skills in teamwork, time management, and responsibility.

ACTIVITIES & ACHIEVEMENTS

- **Hack Club** — Coding and cybersecurity exploration
- **National Honor Society** — More than 150 hrs of Tutoring and community service
- **Sister Carmen Food Bank & Thrift Store** - Volunteered for research projects and service
- **Conrad Innovator** — Awarded through the Conrad Challenge, 2024 during freshman year
- **Varsity Letter** — Men's Varsity Tennis; Top-three finish in Men's Doubles
- **AP Scholar Recognition**
- **Dean's List** — Earned Award Every Semester of High School
